

## **Who Knew?**

**Who knew in 2020 by wearing surgical masks, we would become faceless faces,  
of all nations and races.**

**Who knew?**

**A new genre of habitation would surface,  
causing us all to live our lives in quarantined spaces,  
and with hopes of answers from contact tracers.**

**Who knew?**

**It would mutate from countries to states  
Leaving us to scurry quickly for vaccinations and appointment dates.**

**Who knew?**

**Over 460,000+ lives transitioned to never be again,  
with family and friends  
A dilemma we wanted to end has now become a never- ending global trend.**

**Who knew?**

**In 2021 a rude awakening of a reality leaving us irate and in despair,  
Leaving us a problem from which there seems to be no total repair.**
