

Thank You Doctor

Jeanette Rhyan - Texas

Dear Doctor,

As I lay on the surgical table, what was going through your mind.

What were your thoughts as you opened my chest to get to my heart.

Did you see just the clogged arteries, or did you see the stages of my life?

Working on my two by-passes, did you think about the people I love and the joy they have brought to my life.

Do you see how much I love my husband?

My heart is in your hands doctor, and I want 30 more years on this Earth.

I want to enjoy life every day without fear of another heart attack.

I want to spend time with family and friends.

As you stitched my chest closed, did you say a little prayer that everything would turn out well?

Doctor, do you know what you did for me?

You saved my life.

With gratitude,

Jeanette
