

CRAYOLA COLORS

Today
I ran across
my old box
of 64 Crayola crayons

and remembered how
through childhood
and far beyond
my visual world was defined
by the 64 colors I knew
in my box
of Crayola crayons.

And then I heard,
years later,
that Crayola
had the nerve
to change the colors
in their box.

Well,
so can I,

and so can you.
