

AI (Artificial Intelligence) Art Rubric

Includes all items made by digital devices: computer/phone/programs (ex. Adobe AI, Gemini, DALL-E, chat bots (GPT), GIS Maps, Mid-Journey. Digital Software. Open-source AI design sites etc,(no use of pre-formed templates). Still pictures only. **Ex: Use your photo to create an AI image. PLEASE SEE CHART ON NEXT PAGE**
Image Size: Minimum: 250-450 KB / Maximum: 10 MB

Criteria	11 Unsatisfactory	22 Satisfactory	33 Excellent	SCORE
Subject/Intent: (As related to title) Concept Narrative/Message Creativity	Did not meet submission guidelines.	Met all submission guidelines & adequately presented	Concept: Interpretation of AI creation. Narrative/Message: Clearly defined AI art with a minimum of 2 “prompts” used and inclusion of name of the device/program(s). Creativity: Exceptional use of AI imagery related to title.	
Composition/Design: Originality Design & Cohesion Line & Shape Color/Contrast Form/Texture	Did not meet submission guidelines.	Met all submission guidelines & adequately presented	Originality: Purpose & digital artistic quality Design: Clearly showcases topic via AI art style, unique to artist Line & Shape: Creation of connections & movement within AI design Color/Contrast: Use of variety & color scheme Form/Texture: Well-defined balance of form/texture and style.	
Technique: Clarity Contrast Skillful use	Did not meet submission guidelines.	Met all submission guidelines & adequately presented	Clarity: Sharpness in focal points Contrast: Difference in color, B/W Skillful use: How well the AI medium/media was used to convey subject

Digital Art	AI ART Artificial Intelligence
<p>Definition Artists can: use art programs to design, paint, add borders, add text, add pictures and build a creative art piece.</p>	<p>Definition Artist provides direct input to build an art piece on an AI program/app on computer or Phone. Design program produces the end product.</p>
<p>Who does the majority of design?</p> <ul style="list-style-type: none"> ● Human with online or app programs 	<p>Who does the majority of design?</p> <ul style="list-style-type: none"> ● Human + AI Program
<p>Digital Design Programs examples</p> <ul style="list-style-type: none"> ● Adobe Creative Suite (Illustrator, Photoshop, etc.) ● Silhouette/Cricut ● GIS maps ● Online painting programs. ● Easelly posters (no templates) ● SketchNotes ● No Templates or pre-designed art 	<p>AI Design Programs (1000+)</p> <ul style="list-style-type: none"> ● DALLE ● MidJourney ● Gemini ● OpenAI ● GIS mapping + DALLE ● Canva (no templates) ● Many, Many More
<p>Tips: Make sure all of the design work is original. You will upload your design as a 2D Photo and then choose Digital Art.</p>	<p>Tips: Prompts are needed to engage with the AI bot. AI Bots will ask for the artist to include the design prompts. Make the prompts specific and defined. AI Prompts may include: Subject (your original art or photo) Style, Color, Time, Location, etc. Design using your own photography. You will share your design as a 2D photo and AI Art</p>
